Project No. 50664

1stel, Inc. Filing

May 15, 2020

Management of 1stel recognizes the public health concern presented by the COVID-19 virus and has taken the following steps:

1stel Management has:

- 1. Shared relevant information on the spread of COVID-19 with 1stel staff to make sure they understand the risk and the steps to take to reduce the spread of the virus.**
- 2. Verified the ability to operate and manage equipment used in providing telecom and internet services remotely in the event of quarantine travel restrictions. However if staff must be in the office they are encouraged to practice safe Social Distancing.**
- 3. All Non-Essential Dispatches will be rescheduled once the crisis is over. If a technician must be dispatched for a service that is down and must be in the field to do repairs, will use a mask, gloves and practice safe social distancing.**

No interruption in services is anticipated in the event of a COVID-19 virus emergency.
